

Refer a client to SOAR

The Health Care for the Homeless **SOAR** (SSI/SSDI Outreach, Access and Recovery) program helps people experiencing homelessness to access income benefits. Even if a client has been denied or lost benefits, we may be able to help.

Determine eligibility:

- **Does a mental illness make it impossible to work?**
 - SOAR cannot help clients who qualify solely on physical disability.
- **Do they see a psychiatrist?**
 - Clients must have medical records detailing their disability. We can help to gather them.
- **Do they need help filing for Social Security Income or Social Security Disability Insurance?**
 - Clients must be unable to work enough to make over \$1,470/month.

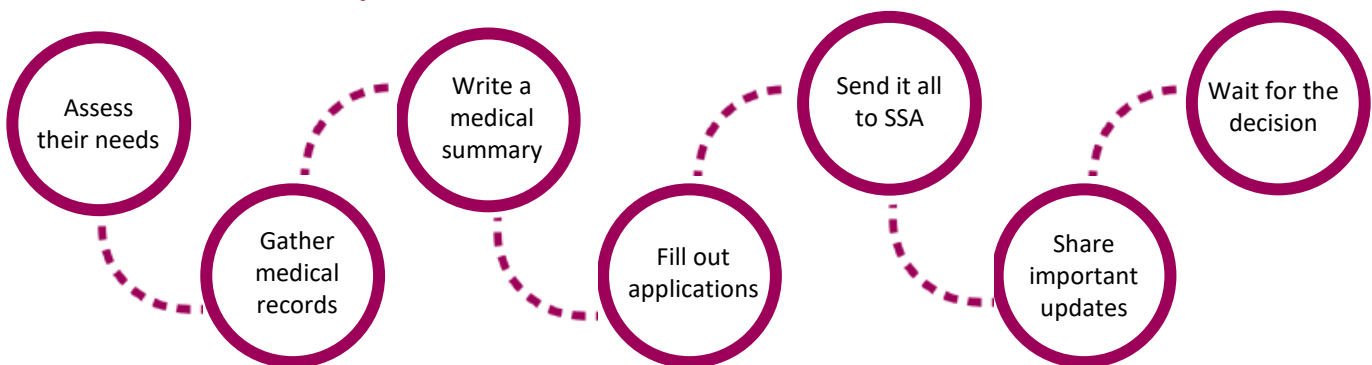

If eligible, contact our SOAR team:
